L. JUNK,

181 CALHOUN STREET.

THE McKinley bill is from beginning to end an exclusively party scheme, deliberately, inflexibly and irresistibly forced upon the country by a disciplined and terrorized congressional majority, at the behests of wealthy industrialists who, in consideration of this service rendered, have contributed funds and influence for carrying the elections in the interest of the party now in ascendency, or more correctly, of certain party leaders. It will stand upon the statute books as the grossest and most corrupt exercise of legislative power ever perpetrated in the history of the country, and as the signal monument of a point of departure at which wealth and corrupt politics joined hands in alliance for defeating public opinion in the government of the nation.—New York Commercial Bulletin (non-partisan.)

THE Philadelphia Evening Telegram, a republican paper, says that "so far as the new tariff was proclaimed to be for the benefit of the workingman, it is a cheat and a lie." So much truth is rarely put into so little space—especially in a republican paper.

THERE is not a section or a line in the entire bill (the McKinley bill) that will open the market for another bushel of wheat or another barrel of pork.—James G. Blaine.

GENERAL GRANT'S CABIN, brought from the banks of the James River and placed in Fairmount Park, Philadelphia, for preservation as a war relic, is fast going to decay. In this cabin Grant issued orders for Sherman's march to the sea. In it the rebel commissioners treated for peace, and after Sherman reached the sea, under its humble roof Lincoln, Grant, Sheridan, Meade, and Admiral Porter met in conference.

The presiding officer of the House of Representatives is called "the Speaker" because the English did so in giving a title to the head of the House of Commons, and they chose that name because that officer is the spokesman of the House when addressing the sovereign.

SPECIAL SESSION.

Both Branches of the Ohio Legislature Meet to Consider Cincinnati's Affairs.

COLUMBUS, Ohio, Oct. 14.—Both branches of the general assembly met at 10 a. m. There were thirteen representatives and two senators absent, leaving the democrats with a majority of one in the senate and five in the house. As soon as the governor was notified that the legislature was assembled, Private Secretary Meeker appeared with the message and it was read in each house, and at once referred to judiciary committees thereof. The house then adjourned to 2 p. m., and the senate to 3 p. m.

GOVERNOR CAMPBELL

Issues a Special Message Calling a Session of the Ohio Legislature.

COLUMBUS, O., Oct. 14.—In calling the special session of the Ohio general assembly, Governor Campbell prefaces his message as follows: "The extraordinary power of calling a special session of your honorable body has been invoked on account of the deplorable condition of public affairs in the city of Cincinnati, which it is believed, can partially be remedied by enabling the people of that city to choose certain important boards at the approaching November election. The time for beginning the work of official reform there has come, and for this laudable purpose you are asked to submit to temporary inconvenience."

In closing he says: "A wise observer, of large experience, recently said, and said truly, that Cincinnati was cursed with a lower moral tone in politics than that which afflicted any other great cities of the country. Now, while the people are awake to their condition, let us return to "home rule." Let us do that which is always right, and which at this particular juncture is an especial necessity."

RECOVERS HER REASON.

Maggie Twomley, of Logansport, Gives an Account of Her Wanderings.

LOGANSPORT, Ind., Oct. 14.—Maggie Twomley, the pretty sixteen year old girl who disappeared from her home in this city ten years ago very mysteriously, and who returned Friday night a raving maniac, has partially recovered her reason since her confinement in jail. Yesterday she said that she had been confined in an insane asylum in Cincinnati for two years, that she was taken from the asylum by a man whom she did not know and brought to her home in this city, where he abandoned her. She had a bundle of clothing, such as patients in an asylum wear, under her arm. Each piece was marked No. 7, and fully corroborates her story that she has just been released from such an institution.

SUNK IN A BOG.

A Missing Girl Dies After Being Restored to Her Parents.

HAZLETON, Pa., Oct. 14.—Flora Malloy, the two-year-old daughter of John Malloy, who has been missing since last Wednesday, was found in a swamp two miles from here early yesterday morning. She was sunk almost out of sight in the bog and life was about gone. She was taken to the nearest house and restoratives administered but the child died last night. It is feared that the strain on the mother will prove too much and that she will lose her reason.

Arrested the Cook.

NEW YORK, Oct. 14.—The cook of Warren was arrested yesterday by treasury inspectors for bringing into port deleterious literature and pictures. The inspectors also took from Electrician Greenhalge, of the Alaska, a set of electrical instruments and a parcel of dress goods. The collector has suggested to the agents of the two steamship companies, that offending employees be dismissed and this will probably be done.

New Lease on Life.

CHICAGO, Oct. 14.—Wm. Purdy will not be hanged next Friday. The supreme court granted a supersedeas yesterday and the action means either a new trial or a stay of execution for several months. Beyond the fact that the writ was granted nothing is yet known.

Father Mathew's Centenary.

DUBLIN, Oct. 14.—There were 50,000 persons in the procession yesterday, in honor of Father Mathew's centenary.

LONDON, Oct. 14.—The Post's Berlin dispatch says that the European cabinets are exchanging notes in regard to the McKinley tariff.

Reversed the Decision.

DES MOINES, Iowa, Oct. 14.—The supreme court brought the celebrated Billings murder case to a final conclusion to-day by reversing for a second time the decision of the district court. The supreme court holds positively that Kingsley committed suicide.

No Export Duty on Logs.

OTTAWA, Ont., Oct. 14.—It is understood that the dominion government, yielding to the continued pressure of Canadian lumbermen, has decided to abolish the export duty on logs going to the United States. The announcement will probably be contained in an extra of the Official Gazette to-day.

NO CARDS FOR MONEY.

A Missouri Judge "Sits Down" on Progressive Euchre at Private Residences.

KANSAS CITY, Mo., Oct. 14.—When the circuit court convened in criminal session at Lexington, Mo., yesterday, Judge Ryland, in making his charge to the grand jury, ordered them especially to investigate reports that games of cards for money, known as progressive euchre and high five, were indulged in at private residences. He ordered them to return indictments against all card players, without regard to sex or social position, and declared that he wanted the breaking of the law stopped.

FRANCISCAN MONKS.

Eight of Them Arrive at New York From France.

NEW YORK, Oct. 14.—Eight Franciscan monks from the monastery at Toulouse, France, arrived on Sunday in the steerage of the steamship La Gascogne. They were led by Father Dislas, a dignified, gray-bearded ascetic, who purchased their tickets and acted as spokesman for the party. They are going to Ottawa to establish a house of their order under the direction of Archbishop Duhamel.

WOULD HAVE HAD MILLIONS

Had He Lived, But Death Comes Accidentally.

SAN FRANCISCO, Oct. 14.—The only son of Col. Chas. Fred Crocker, second vice-president of the Southern Pacific, fell over the banister in his father's house Sunday and was killed. The boy, who was but ten years of age, would have inherited the bulk of his father's large estate, now estimated at $15,000,000 and growing every year.

Denies the Charge.

LITTLE ROCK, Oct. 14.—O. Stobaugh, the hotel man who entertained Brackenridge at Center Ridge, Conway county, where it is alleged an attempt was made on the life of Brackenridge, publishes a letter in which he positively denies the report. He says any reputable democrat of his neighborhood will make affidavit that the story is wholly untrue. The democrats are greatly worried over the exposure of the fact, as it is considered that Brackenridge will lose caste among the more liberal element.

HOME AGAIN.

The President Returns From His Western Trip---The Count of Paris.

WASHINGTON, Oct. 14.—The president returned to Washington at 8:45 o'clock this morning. His private car, the Hazlemere, was a part of the fast express of the Pennsylvania road. The president was accompanied on his return by Secretary Tracy, Marshal Ransdell, Private Secretary Halford, Mr. Tibbott, the stenographer of the executive mansion, Mr. Bishop, of the C. & O. railway, and Mr. Bain, the correspondent of the United Press. The presidential party breakfasted on the Hazlemere, just as the train was leaving Baltimore this morning. The president remarked at breakfast that his trip had been a very pleasant one. He has come through the ordeal of constant speaking, dining and handshaking, and through the 3,000 miles of railroad travel in good physical condition. The president was met at the station this morning by Mr. Pruden and Captain Dinsmore, the chief usher of the white house. Two carriages were in waiting, and the president, with Secretary Halford, was driven direct to the executive mansion.

The Count of Paris, who returned to Washington last night from his southern trip, left the city early this morning for a visit to the battle fields of western Maryland and in Pennsylvania. The count and his friends were accompanied by a number of distinguished veteran officers of the war, among them Generals Slocum, Howard, Sickles, Newton, Hayes, Butterfield, Doubleday, Wright, Pleasanton and Gregg. They will visit Harper's Ferry, Bolivar Heights, the Shenandoah valley, Antietam battle field and Gettysburg. From Gettysburg the iron works of interior Pennsylvania will be inspected and as the count has displayed a great desire to see the greatest inventor of the time, the party will visit Edison at Menlo park at his invitation.

RAINS IN THE SOUTH.

The Heaviest for Years. Cause Much Damage.

PARKERSBURG, W. Va., Oct. 14.—Sunday night and yesterday the heaviest rain for years fell in this section. All counties north of Little Kanawha are flooded, causing much damage. The Kanawha river is swollen for thirty-eight miles and large quantities of timber, grain and logs, and many houses are afloat. Several farmers have lost their entire crops. All the railroads entering here have suffered. The fourth division of the Baltimore & Ohio is entirely abandoned, no less than thirty trestles and bridges being washed away. On the Parkersburg branch of this road two culverts and bridges were washed away and all trains delayed six hours. No train has come from Wheeling since Sunday night, owing to the washing away of the Caldwell run culvert, which almost occasioned a terrible disaster. As a passenger train was crossing the trestles the coaches jumped the track, but owing to the moderate speed the engineer put on the air brakes in time to catch the cars before they toppled over into the stream. The passengers were transferred. In Ritchie county great damage is reported.

NO GUESSES GO.

The Cleveland Press Can't Get Through the Mail With a Lottery Advertisement.

CLEVELAND, Oct. 14.—The post office authorities notified the Cleveland Press this morning that the paper could not go through the mails while a certain advertisement remained in its columns. The advertisement in question was from a prominent clothing house and offered a pony to the purchaser who could guess its weight. The authorities hold that it came under the provisions of the lottery law.

FELL ASLEEP

While Sitting Near a Stove and Was Burned to Death.

PLEASANTVILLE, N. J., Oct. 14.—Jonathan Risley, a farmer, aged eighty-four, fell asleep while sitting near a stove at his home yesterday, but was awakened by his coat catching fire. He rushed into the yard, where his cries brought a neighbor, who smothered the flames. He died two hours later in terrible agony. He leaves a wife and several adult children.

MISS WINNIE DAVIS.

Her Marriage Engagement Broken on Account of Poor Health.

SYRACUSE, N. Y., Oct. 14.—Alfred Wilkinson, of Syracuse, who was engaged to Miss Winnie Davis, "the daughter of the confederacy," yesterday afternoon announced that the engagement has been broken. He says this was done at the request of Miss Davis, who has been in poor health for some time past.

The Michigan Miners.

ISHPEMING, Mich., Oct. 14.—The Detroit mine has conceded to the demands of the strikers. The striking miners of the Angeline held a conference with their employees yesterday, but no understanding was reached and another meeting will be held to-day. The men continue firm in their demand and are orderly.

CHRISTIANITY'S FOE.

A Monument Unveiled at Berlin to a Noted Philosopher Who Was an Antagonist of Christianity.

BERLIN, Oct. 14.—A monument was unveiled to day to Gotthold Ephriem Lassing, the noted philosopher and antagonist of Christianity.

Prince Frederick Leopold unveiled the monument amid a vast concourse of people, including Gossler minister of agriculture; De Boetticher, minister of state, in charge of the imperial bank, and other notables and leading men in science and literature from various parts of Europe.

The ceremony took place at the Tier garten. The clergy of all denominations set their faces against the demonstration, and carefully abstained from taking any part in it.

HALLE, Oct. 14.—In the socialist congress to day an exciting discussion took place between the liberals and extremists, in which the former proved to be in the majority.

Herr Singer advocated agitation by parliamentary methods, and denounced those who were opposed to achieving the aims of socialism with the weapons furnished by the law and constitution.

The congress finally voted a resolution in favor of Herr Singer's views, much to the disappointment of the more violent element of the party.

The feeling against Herr Werner, who is accused of insincerity and of being a socialist for revenue only, is growing, and it appears certain that he will not be permitted to remain in the congress.

A BAD 'REP.'

Chief-of-Police Wilkinson Pronounces the "Edsall House" a Nest of Iniquity.

The police visited the Edsall house at the corner of Clinton and East Superior streets last night and placed under arrest Eva Jones, a notorious character, and two men who were slated as Wm. Morgan and James Wilson. The parties were arraigned before the mayor this morning and Chief Wilkinson and Officer Stoll testified to the bad character of the Edsall hotel, styling it an "assignation house." Marshal Franke testified that the character of "Eva" was bad. The mayor gave instructions to have the house kept under surveillance. The fine of $15.50 was paid by the offenders.

Harry Falkerson and Jennie Kain were arrested by Officer Fletcher in a house on Franklin avenue, and each went to jail for sixteen days.

MAY BE LYNCHED.

Villainous Brutes of Men May Be Severely Dealt With.

SHELBYVILLE, Ind., Oct. 14.—Nora Farlow, a feeble minded daughter of Nathan Farlow, a well-to-do farmer of St. Omers, near here, was criminally assaulted Sunday night by Walter Slifer, Leslie Avery and John Carroll, each about seventeen years of age. The brutes entered the house while the family were at church and the girl at home alone. A boy named Meeks saw the villains enter the house and hearing screams shortly afterward, surmised the truth and informed some neighbors. Slifer was captured, but the other two escaped. Officers are scouring the country for them. Slifer is in jail under a heavy guard as there are threats of lynching.

PLACE OF BURIAL.

Justice Miller and Gen. Belknap May be Buried at Keokuk, Iowa.

KEOKUK, Iowa, Oct. 14.—News of the death of Justice Miller was received here with genuine feeling of sorrow by all. The dead jurist was quite popular here, the oldest citizens who were his friends and associates before his elevation to the supreme bench, esteeming him highly, while those who came to know him during his frequent visits to this city cherish his memory pleasantly.

It is thought that the remains of Judge Miller and Gen. Belknap will be brought here for burial, the bodies of their first wives and children being buried here.

CHARLOTTE, N. C., Oct. 14.—Congressman Brower, of the Fifth North Carolina district, was assaulted by Jos. Bradfield, a journalist, at Wenthworth, in Rockingham county, on Saturday evening. The assault grew out of charges that Bradfield made concerning Brower's immoral life while in Washington. The affair has caused much excitement in the Fifth district. Brower's opponent thrusts these charges into his teeth and gets no answer.

In Justice Hays' court Harry Talmage has brought suit against Hannah Talmage and the Wabash Railway company in replevin for one organ, one sewing machine and household furniture and $75 damages. Before Justice France to day the case of August Dammeier vs. Peter Hamilton was settled by the defendant paying the claim of $4 and costs.

The damage suit of John G. Friedline vs. the Pennsylvania company for $10,000 opened trial in the circuit court to day. The defendant, a resident of Monroeville, stepped off a moving train while riding as a passenger, and had one of his lower limbs taken off near the knee. The plaintiff, who is present at the trial, has Judge L. M. Ninde to present his claim, while Judge Brackenridge, the company attorney, and Judge Morris appear for the defendants.

William Goodfellow is charged with assault and battery on Tim Foley. The case was set for this morning in Justice Wilkinson's court, but was postponed until to morrow.

WEDDINGS TO-NIGHT.

Young-French Nuptials---A Marriage at New Haven.

This evening at the bride's home, corner of Clinton and Holman streets, will take place the marriage of Miss Mary A., daughter of Mrs. May J. French, to Edgar S. Young, the popular clerk in the Nickel Plate offices. Rev. A. K. Zartman will perform the ceremony. After a brief wedding trip the young couple will go to housekeeping at 222 West Wayne street.

This evening at New Haven will take place the marriage of Marion S. Hartzell and Miss Jessie Rogers, both of that place. Rev. S. A. Northrop, of this city, will officiate. The groom is a well-to-do stock raiser and is quite well known in Fort Wayne business circles.

The marriage of Lewis H. Green to Miss Mary Brinsley last evening was a quiet affair. As announced in THE SENTINEL'S account of the wedding yesterday the young couple will go to to housekeeping on West Jefferson street at once.

THE OFFICERS NEXT.

After That an Exposition Site Will be Quickly Chosen.

The result of last night's meeting of the stockholders in the exposition association will be found in this issue of THE SENTINEL. A meeting will be held at the rooms of the Land and Improvement company to-morrow evening for the election of officers. The site question will then be brought up and it is believed it will be submitted to the stockholders next Monday evening to choose and pass upon. The committee is still reticent about a site, although one of them expressed himself as follows to day: "I anticipate almost an unanimous sentiment in favor of a site lying to the northeast, either the Tabor tract, the Hayden farm, the Evans farm or Centlivre's ground. The Tabor tract, if it can be leased with an option of purchase, may be selected. But if such option cannot be procured, the Tabor tract will be out of the question."

All of the grounds will be visited and reported upon.

EMMETT COMMANDERY.

The Organization Feels the Pulse of Interest Growing Weaker.

The Emmett commandery, Knights of St. John, which is virtually a uniform rank of the Catholic Benevolent legion, held a meeting last night, which resulted in a disbandment of the society. There has been a lack of interest shown lately at the meetings and the captain has had trouble to draw out a desired number at drills. A new commandery will probably be organized soon.

AN ACCIDENT.

William Robinson Suffers a Fractured Collar Bone.

William Robinson, a car wheel moulder at the Bass foundry, met with a serious accident yesterday, which resulted in a fractured collar bone and serious bruises. He was conveyed to his home, No. 7 Savannah street, where Dr. L. T. Sturgis attended him.

Cooler Westerly Winds, but Fair Weather Promised.

WASHINGTON, Oct. 14.—For Indiana: Cooler, westerly winds, fair weather; frosts to-night.

MAY TAKE THE ERMINE.

Talk at Washington About the Elevation of Attorney-General Miller to the U. S. Supreme Court.

WASHINGTON, Oct. 14.—No sooner was the death of Justice Miller announced than the talk as to who would be his successor was indulged in by political gossips. Many think that the judicial robes of the dead justice will fall upon Attorney-General Miller, who was the former law partner of the president at Indianapolis. It would afford President Harrison the opportunity of "fixing" Mr. Miller for life.

Attorney-General Miller formerly resided in Fort Wayne and frequently visits here, where he has property interest.—(ED SENTINEL)

A Distinguished Party the Guests of Father Edward Koenig.

It was a festal occasion, a feature of which was a grand dinner. Father Koenig received congratulations from all present, and some written ones.

Prize Fighters Arrested.

VALPARAISO, Ind., Oct. 14.—The principals in Sunday's fight, O'Hearne and Sweeney, were fined $500 yesterday, and sentenced to the county jail for six months. The referee was fined $500.

TWO PERSONS may be born at the same time and die at the same time, and yet one have lived one hundred days more than the other. The explanation of this riddle turns upon the familiar fact that a person who goes round the world toward the west loses a day, while the person who travels in the opposite direction gains a day. We will suppose, then, that the two men in question were born at the same instant in St. Louis, from whence a trip around the world may easily be made once a year. One of them goes always to the west, the other toward the east. One loses a day every year, and the other gains a day every year. When the men die, at fifty years of age, one has seen one hundred days more than the other.

A SCIENTIFIC writer advises that of the various patterns of filters in use very few of them are of any use whatever. They act not only as a strainer to remove the coarser impurities, but have no effect upon the microscopic bacteria, or matters held in solution, which are the most dangerous. A flannel bag is exactly as good a filter as those expensive devices, and possesses the additional advantages of being easily cleaned or renewed. The most effective filters are those in which a disk of porous stone or earthenware forms the filtering material, but it is best to make sure of the original supply of water, rather than to purify it by any such uncertain methods.

A WONDERFUL poplar tree was recently cut in Logan County, Virginia. The log measures 97 feet long, is 63 inches in diameter, cubes 1,090 feet, or 21,125 feet board measure. It will be run out on the first water that will carry a log of such dimensions. It is probably the biggest log ever cut and sent to a saw mill in one piece.

THEY have a curious custom at the burial of unmarried women in Brazil. The coffin, hearse and the livery of the driver must be bright scarlet, the four white horses drawing the hearse must be covered with scarlet nets, and scarlet plumes must deck the horses' heads.

LAST night, at Taylor University, Bishop William Taylor commenced a series of three lectures on "Africa and the African." In commencing he said. "Africa is a vast unknown quantity. It comprises one fourth of the land area of the world and, according to Mr. Stanley, has a population of at least two hundred and fifty million." The lecture was interesting throughout. The bishop announced that this evening he would explain the method he has discovered for the rapid evangelization of Africa. Bishop Taylor will sail next week for Africa, where he is doing a grand work.

SEVEN years ago Sunday, in Philadelphia, Bishop Knickerbacker received his consecration to become bishop of the Indiana diocese. He gave a review of his seven years' labor at St. Paul's church, Indianapolis, Sunday morning. By aid of funds the bishop has been able to extend churches into twenty counties, twenty five places, and has established twelve mission churches. There have been built nineteen churches in all, at a cost of $119,000, and $6,500 has been expended in chapels; $7,500 in mission houses. Ten rectories have been built at a cost of $37,000. Instead of the forty unoccupied counties which now exist, the hope is to see the church established in every county seat in the state.

A PAPER printed in Lansing, Mich., announces that J. G. McAuley, formerly of that town, has secured a patent for manufacturing gas on an entirely new principle, by which gas can be manufactured cheaper and more rapidly than by any other process now known. Mr. McAuley claims that he can manufacture gas far superior to natural gas, for both heat and illuminating, at less than 2 cents per 1,000 cubic feet.

THE FAIR ASSOCIATION.

The stockholders of the Fort Wayne Exposition and Fair Association met last night in the United States court room at the government building to perfect a permanent organization. The meeting was called to order by D. N Foster. Mr. Henry Monning was elected chairman and C. D. Tillo secretary. The committee that had made the canvass for subscriptions and who were also instructed to present a plan of organization, reported the articles of incorporation and by laws, which were discussed and adopted.

The society is organized under the laws of the state of Indiana as a body corporate with the name of the Fort Wayne Exposition and Fair Association and its object is to establish and maintain an association for agricultural and horticultural purposes and to promote and encourage the mechanical arts, by the holding of a fair in or near the city of Fort Wayne, Allen county, Indiana, and to that end the association may lease, purchase, mortgage, sell and convey real estate and do other things necessary or proper for the attainment of its said object. The capital stock of the association is placed at $50,000, divided into 5,000 shares of $10 each.

The business and prudential concerns of the association will be managed by a board of twenty-one directors, elected by the shareholders of the association in such manner as the by-laws may determine. The number of such directors may be increased or diminished at any annual meeting, or any special meeting of the stockholders called for that purpose.

The customary duties of the officers are defined, the secretary to give a bond of $10,000 and the treasurer a bond of $25,000; the affairs are to be managed by the board of directors; of the board first elected seven members thereof shall hold office until the annual meeting in 1891, seven until the annual meeting in 1892, and seven until the annual meeting in 1893, the selection of each class to be made by lot drawn by the members of the board at its first meeting. Thereafter seven directors shall be chosen each year at the regular meeting of the stockholders on the second Monday in December, commencing in 1891, and they shall hold office for the term of three years.

The association than proceeded to vote for directors and the following were chosen: D. N. Foster, A. E. Hoffman, A. D. Cressler, J. W. Bell, Thomas Stewart, William Fleming, Willis B. Bash, L. A. Centlivre, R. T. McDonald, William Meyer, J. C. Peters, W. J. Vesey, A. S. Lauferty, G. W. Pixley, Frank Wilt, Max Fisher, E. T. Williams, S. M. Foster, S. C. Lumbard, I. Mowrer, Charles McCulloch.

The board will meet in special session Wednesday evening at 8 o'clock at the office of the Tri State Loan association to provide for organization and election of officers.

JUSTICE MILLER'S DEATH.

Justice Miller died at 10:52 last night at his home in Washington, D. C. As has been predicted the end was peaceful and painless. He did not for a moment return to consciousness since the night of the fatal stroke. Last night there was little change till about 10:30, when a change for the worse was observed. From that time the respiration grew shorter and it was evident the end was at hand. His family were called to the bedside. The physicians did all that mortal power could do, and at eight minutes before eleven he ceased to breath.

Justice Miller was the oldest judge in the supreme court of the United States, having been appointed during President Lincoln's administration when the supreme court was reorganized in 1862.

The paralytic stroke of Justice Miller last Friday was a surprise to every one in Washington. His constitution has apparently been one of iron, and he has for years worked more than twelve hours out of the twenty-four. It was his habit to go into his office, at his home on Massachusetts avenue, as soon as he had finished his breakfast in the morning, and to work there upon his cases until the supreme court met at noon. During his whole career as a supreme court justice he missed scarcely a day in attendance upon the supreme court when it was sitting, and he worked far into the night writing his opinions and passing upon cases after his return from the capitol.

There has been no judge on the bench for years who has done more work than Justice Miller, and he was one of the best equipped men of the corps of justices. He was a self-educated man and he never had the advantage of college training. Like Justice Bradley, he was very fond of mathematics, and he kept up his mathematical studies during his later years. He started in life as a drug clerk and spent three years in making up prescriptions. He then went to a medical school in Kentucky and practiced medicine, after he had gotten his diploma, for eight years. He found it impossible for a young doctor to get along without a wife, and he had two children before he decided to give up medicine for law. When he began to study law he took up the study of Latin and acquired a thorough knowledge of the language. He has, however, always decried the study of dead languages, and he said not long ago that he did not think there was any necessity for a man to waste four years of his life in the study of dead languages.

REFORMED ORPHANS' HOME.

A Visitor to the City Gives a Pen Picture of the Institution.

The Reformed orphans' home, which, under the charge of Superintendent John Rettig, is located near the eastern confines of this city, is thus described in the last number of the Grace Church Visitor by Rev. R. C. Zartman, of Akron, Ohio, who, in company with others, was shown through the institution during a recent visit to this city:

"The orphanage is located on a farm of fifty-seven acres. The principal building is a large and commodious brick structure, erected originally at a cost of $10,000. This summer an addition was built at an expense of $8,000. There is a large frame barn, a dwelling house and other buildings on these premises, and all in excellent condition. The land is cultivated by the superintendent and the boys of the home, who are large enough to do such work. They also rent neighboring fields and farm them. In this way the grain, fruits and vegetables for the home are raised, and many hundred dollars' worth are sold and the proceeds used in maintaining the orphan family. All of the children are put to work, and thus are they taught the valuable and indispensible lessor of industry. The children are sent to the district school ten months in the year.

"Miss Rettig is the teacher. Besides this schooling they are taught good manners, Bible truths and Christian principles in the home. Daily prayers are observed by all the children, and on the Lord's day the Sunday school lesson is taught them. The children are educated both in German and English; and English as well as German children are admitted to the home. We saw a number of boys and girls who can now read, speak and sing in German, but when they entered the home they knew nothing but the English language. The educational features of the home impressed us very favorably in every particular.

"At the present time there are sixty-one boys and girls at the home; they are children of Reformed parentage; there are twice as many boys as girls. When the new building is completed, which will be very soon, over a hundred children can be accommodated. The present yearly expense of running the home is $5,000. About one fourth of this amount is earned by the farming and gardening done by the home. The other needed funds are secured by the contributions of the Sunday schools, churches and individuals.

"The home is managed in an economical manner; indeed, we consider its management perfect, and the most satisfactory of any known to us. The entire confidence of the church can be reposed in this home, because of its unsurpassed government. This grand institution is owned conjointly by the three German Reformed synods. Our German brethren started it seven years ago, and they are entitled to great praise for it."

The opinion of an old and well-known merchant is given in a few words, viz: "I think Dr. Bull's Cough Syrup is the best cough medicine that is made. Luther B. Black, Selma, Ind."

"Diseased nature oftentimes breaks forth in strange eruptions," and the result of it all is pain. Now Salvation Oil will send this very pain to the right-about at the trifling cost of only 25 cents.

English brewing syndicate tried to buy the Moerlein concern for $5,000,000, in Cincinnati, but failed.

Facts Worth Knowing.

In all diseases of the nasal mucous membrane the remedy used must be non-irritating. The medical profession has been slow to learn this. Nothing satisfactory can be accomplished with douches, snuffs, powders or syringes because they are all irritating, do not thoroughly reach the affected surfaces and should be abandoned as worse than failures. A multitude of persons who had for years borne all the worry and pain that catarrh can inflict testify to radical cures wrought by Ely's Cream Balm.

George Fairfield and Ed. Tenney have been mustered into the Rifles.

The synod of the Presbyterian church of Indiana, comprising every Presbyterian church in the state, meets this week at Indianapolis. It is composed of eighty Presbyteries, and each church is entitled to send a minister and one elder. The opening sermon this evening will be by Rev. John H. Barrows, D. D, pastor of the First Presbyterian church, of Chicago, Dr. Barrows subject will be "America for Christ, or the Crisis in Home Missions." Wednesday afternoon at 2 o'clock addresses will be made in behalf of the fund for retired ministers; at 3 o'clock the Rev. Dr. J. A. Worden will speak on behalf of the Sunday school work. Wednesday evening the Rev. W. P. Kane, D. D., of Lafayette, and Rev. Dr. D. J. McMillian, of New York city, will speak on home missions. Wednesday afternoon the cause of the freedom in the south will be considered, followed by an address by Rev. E. A. Mutchman, D. D, editor of the Philadelphia Presbyterian, on "The Education of Ministers." Thursday evening the Rev. John Gillespie, D. D., of New York city, will speak on foreign missions, and Rev. H. D Ganse, D. D., of Chicago, on "Education in Presbyterian Colleges and Academies."

PASTOR KOENIG'S NERVE TONIC

The Best Remedy

in this world, says J. Hofherr of Syracuse, N. Y., is Pastor Koenig's Nerve Tonic, because my son who was partially paralized three years ago and attacked by fits, has not had any symptoms of them since he took one bottle of the remedy. I most heartily thank for it.

Superior Nervine.

Cleveland, Ohio, May, 1890
I used Pastor Koenig's Nerve Tonic for nervous trouble of a cerebral nature, resulting from overwork, and have found more relief from it than anything I used, though I spent a good deal of money for medicines and doctors. The Tonic relieves all nervous irritation, is a superior nervine, and a prompt and efficacious spasmodic.

Human Frailty.

We are frail creatures physically—the most robust among us. The unhealthy man or woman is in great measure incapable of benefit to society. If for instance, Biliousness, a trouble of frequence and often obstinately resistant of ordinary medication, obstructs the harmonious action of the liver and the bowles, the sufferer is sure to be dyspeptic. The three disordered conditions are sure to be confirmed by neglect. Under the erroneous impression that there is no hope for him, an impression in all likelihood confirmed by the use of objectionable remedies, the sufferer is apt to become neglectful, nay, even reckless, and that the sooner he is removed from the sphere of human endeavor the better for all parties concerned What a series of mistakes! His liver is responsible. It is an incorporate part of himself. How discipline it? By the aid of Hostetter's Stomach Bitters, a certain medium for the re-establishment of united, regular action in the stomach, liver and bowels. It also cures and prevents malarial, rheumatic and kidney troubles.

AN ANXIOUS FATHER.

Michael Helworth, of this County, Goes West in Search of a Son.

Michael Helworth, a well known resident of New Haven, this county, was in the city last evening. He left on Wabash train, No. 43, for Salt Lake City. Mr. Helworth's mission west is to search for his son, Nelson, of whose whereabouts he has not heard a word for six months. The junior Helworth left home for Salt Lake City May 9, 1889, and secured a position at that place. He wrote home regularly every week. His last letter stated that he was going into the mines of Cottonwood Canyon, near Salt lake, and it is feared he has met an untimely death there. Nelson is well known in this city, having worked here for a time, and also was a pupil in the business college.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg; doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Dreier & Bro., drug store.

The Pulpit and the Stage.

Rev. F. M. Shrout, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My Lungs were badly diseased and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining twenty six pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at Dreier & Bro.'s Drug Store, Regular sizes 50c and $1.00.

A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY,
OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.

No. 702. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ..... LARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED. Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

A petition, signed by numerous citizens of the east end will be presented to the council this evening.

Why it is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day.

THE McKinley bill is from beginning to end an exclusively party scheme, deliberately, infamously and irremediably forced upon the country by a disciplined and terrorized congressional majority, at the behests of wealthy industrialists who, in consideration of this service rendered, have contributed funds and influence for carrying the elections in the interest of the party now in ascendency, or more correctly, of certain party leaders. It will stand upon the statute books as the grossest and most corrupt exercise of legislative power ever perpetrated in the history of the country, and as the signal monument of a point of departure at which wealth and corrupt politics joined hands in defiance for defeating public opinion in the government of the nation.—New York Commercial Bulletin (non-partisan.)

THE Philadelphia Evening Telegram, a republican paper, says that "so far as the new tariff was proclaimed to be for the benefit of the workingman, it is a sheet and a lie." So much truth is rarely put into so little space—especially in a republican paper.

TEXAS is not a section or a line in the entire bill (the McKinley bill) that will open the market for another bushel of wheat or another barrel of pork.—James G. Blaine.

GENERAL GRANT'S cabin, brought from the banks of the James River and placed in Fairmount Park, Philadelphia, for preservation as a war relic, is fast going to decay. In this cabin Grant issued orders for Sherman's march to the sea. In it the rebel commissioners treated for peace, and after Sherman reached the sea, under its humble roof-Lincoln, Grant, Sheridan, Meade, and Admiral Porter met in conference.

The presiding officer of the House of Representatives is called "the Speaker" because the English did so in giving a title to the head of the House of Commons, and they chose that name because that officer is the spokesman of the House when addressing the sovereign.

SPECIAL SESSION.

Both Branches of the Ohio Legislature Meet to Consider Cincinnati's Affairs.

COLUMBUS, Ohio, Oct. 14.—Both branches of the general assembly met at 10 a. m. There were thirteen representatives and two senators absent, leaving the democrats with a majority of one in the senate and five in the house. As soon as the governor was notified that the legislature was assembled, Private Secretary Meeker appeared with the message and it was read in each house, and at once referred to judiciary committees thereof. The house then adjourned to 2 p. m., and the senate to 3 p. m.

GOVERNOR CAMPBELL

Issues a Special Message Calling a Session of the Ohio Legislature.

COLUMBUS, O., Oct. 14.—In calling the special session of the Ohio general assembly, Governor Campbell prefaces his message as follows: "The extraordinary power of calling a special session of your honorable body has been invoked on account of the deplorable condition of public affairs in the city of Cincinnati, which it is believed, can partially be remedied by enabling the people of that city to choose certain important boards at the approaching November election. The time for beginning the work of official reform there has come, and for this laudable purpose you are asked to submit to temporary inconvenience."

In closing he says: "A wise observer, of large experience, recently said, and said truly, that Cincinnati was cursed with a lower moral tone in politics than that which afflicted any other great cities of the country. Now, while the people are awake to their condition, let us return to "home rule." Let us do that which is always right, and which at this particular juncture is an especial necessity."

RECOVERS HER REASON.

Maggie Twomley, of Logansport, Gives an Account of Her Wanderings.

LOGANSPORT, Ind., Oct. 14.—Maggie Twomley, the pretty sixteen year old girl who disappeared from her home in this city ten years ago very mysteriously, and who returned Friday night a raving maniac, has partially recovered her reason since her confinement in jail. Yesterday she said that she had been confined in an insane asylum in Cincinnati for two years, that she was taken from the asylum by a man whom she did not know and brought to her home in this city, where he abandoned her. She had a bundle of clothing, such as patients in an asylum wear, under her arm. Each piece was marked No. 7, and fully corroborates her story that she has just been released from such an institution.

SUNK IN A BOG.

A Missing Girl Died After Being Restored to Her Parents.

HAZLETON, Pa., Oct. 14.—Flora Malloy, the two-year-old daughter of John Malloy, who has been missing since last Wednesday, was found in a swamp two miles from here early yesterday morning. She was sunk almost out of sight in the bog and life was about gone. She was taken to the nearest house and restoratives administered but the child died last night. It is feared that the strain on the mother will prove too much and that she will lose her reason.

Arrested the Cook.

NEW YORK, Oct. 14.—The cook of Warren was arrested yesterday by treasury inspectors for bringing into port deleterious literature and pictures. The inspectors also took from Electrician Greenhalge, of the Alaska, a set of electrical instruments and a parcel of dress goods. The collector has suggested to the agents of the two steamship companies, that offending employees be dismissed and this will probably be done.

New Lease on Life.

CHICAGO, Oct. 14.—Wm. Purdy will not be hanged next Friday. The supreme court granted a supersedeas yesterday and the action means either a new trial or a stay of execution for several months. Beyond the fact that the writ was granted nothing is yet known.

Father Mathew's Centenary.

DUBLIN, Oct. 14.—There were 50,000 persons in the procession yesterday, in honor of Father Mathew's centenary.

LONDON, Oct. 14.—The Post's Berlin dispatch says that the European cabinets are exchanging notes in regard to the McKinley tariff.

Reversed the Decision.

DES MOINES, Iowa, Oct. 14.—The supreme court brought the celebrated Billings murder case to a final conclusion to-day by reversing for a second time the decision of the district court. The supreme court holds positively that Kingsley committed suicide.

No Export Duty on Logs.

OTTAWA, Ont., Oct. 14.—It is understood that the dominion government, yielding to the continued pressure of Canadian lumbermen, has decided to abolish the export duty on logs going to the United States. The announcement will probably be contained in an extra of the Official Gazette to-day.

NO CARDS FOR MONEY.

A Missouri Judge "Sits Down" on Progressive Euchre at Private Residences.

KANSAS CITY, Mo., Oct. 14.—When the circuit court convened in criminal session at Lexington, Mo., yesterday, Judge Ryland, in making his charge to the grand jury, ordered them especially to investigate reports that games of cards for money, known as progressive euchre and high five, were indulged in at private residences. He ordered them to return indictments against all card players, without regard to sex or social position, and declared that he wanted the breaking of the law stopped.

FRANCISCAN MONKS.

Eight of Them Arrive at New York From France.

NEW YORK, Oct. 14.—Eight Franciscan monks from the monastery at Toulouse, France, arrived on Sunday in the steerage of the steamship La Gascogne. They were led by Fa[illegible] Dislas, a dignified, gray-bearded ascetic, who purchased their tickets and acted as spokesman for the party. They are going to Ottawa to establish a house of their order under the direction of Archbishop Duhamel.

WOULD HAVE HAD MILLIONS

Had He Lived, But Death Comes Accidentally.

SAN FRANCISCO, Oct. 14.—The only son of Col. Chas. Fred Crocker, second vice-president of the Southern Pacific, fell over the banister in his father's house Sunday and was killed. The boy, who was but ten years of age, would have inherited the bulk of his father's large estate, now estimated at $15,000,000 and growing every year.

Beates the Charge.

LITTLE ROCK, Oct. 14.—O. Stolmugh, the hotel man who entertained Breckenridge at Center Ridge, Conway county, where it is alleged an attempt was made on the life of Breckenridge, publishes a letter in which he positively denies the report. He says any reputable democrat of his neighborhood will make affidavit that the story is wholly untrue. The democrats are greatly worried over the exposure of the fact, as it is considered that Breckenridge will lose caste among the more liberal element.

The President Returns From His Western Trip---The Count of Paris.

WASHINGTON, Oct. 14.—The president returned to Washington at 8:45 o'clock this morning. His private car, the Hazlemere, was a part of the fast express of the Pennsylvania road. The president was accompanied on his return by Secretary Tracy, Marshal Bansdell, Private Secretary Halford, Mr. Tibbott, the stenographer of the executive mansion, Mr. Bishop, of the C. & O. railway, and Mr. Bain, the correspondent of the United Press. The presidential party breakfasted on the Hazlemere, just as the train was leaving Baltimore this morning. The president remarked at breakfast that his trip had been a very pleasant one. He has come through the ordeal of constant speaking, dining and handshaking, and through the 3,000 miles of railroad travel in good physical condition. The president was met at the station this morning by Mr. Pruden and Captain Dinsmore, the chief usher of the white house. Two carriages were in waiting, and the president, with Secretary Halford, was driven direct to the executive mansion.

The Count of Paris, who returned to Washington last night from his southern trip, left the city early this morning for a visit to the battle fields of western Maryland and in Pennsylvania. The count and his friends were accompanied by a number of distinguished veteran officers of the war, among them Generals Slocum, Howard, Sickles, Newton, Hayes, Butterfield, Doubleday, Wright, Pleasanton and Gregg. They will visit Harper's Ferry, Bolivar Heights, the Shenandoah valley, Antietam battle field and Gettysburg. From Gettysburg the iron works of interior Pennsylvania will be inspected and as the count has displayed great desire to see the greatest inventor of the time, the party will visit Edison at Menlo park at his invitation.

RAINS IN THE SOUTH.

The Heaviest for Years, Cause Much Damage.

PARKERSBURG, W. Va., Oct. 14.—Sunday night and yesterday the heaviest rain for years fell in this section. All counties north of Little Kanawha are flooded, causing much damage. The Kanawha river is swollen for thirty-eight miles and large quantities of timber, grain and logs, and many houses are afloat. Several farmers have lost their entire crops. All the railroads entering here have suffered. The fourth division of the Baltimore & Ohio is entirely abandoned, no less than thirty trestles and bridges being washed away. On the Parkersburg branch of this road two culverts and bridges were washed away and all trains delayed six hours. No train has come from Wheeling since Sunday night, owing to the washing away of the Caldwell run culvert, which almost occasioned a terrible disaster. As a passenger train was crossing the trestles the coaches jumped the track, but owing to the moderate speed the engineer put on the air brakes in time to catch the cars before they toppled over into the stream. The passengers were transferred. In Ritchie county great damage is reported.

The authorities hold that it came under the provisions of the lottery law.

A Monument Unveiled at Berlin to a Noted Philosopher Who Was an Antagonist of Christianity.

BERLIN, Oct. 14.—A monument was unveiled to-day to Gotthold Ephriem Lessing, the noted philosopher and antagonist of Christianity.

Prince Frederick Leopold unveiled the monument amid a vast concourse of people, including Gessler minister of agriculture; De Bottticher, minister of state; in charge of the imperial bank, and other notables and leading men in science and literature from various parts of Europe.

The ceremony took place at the Tier garten. The clergy of all denominations set their faces against the demonstration, and carefully abstained from taking any part in it.

HALLE, Oct. 14.—In the socialist congress to-day an exciting discussion took place between the liberals and extremists, in which the former proved to be in the majority.

Herr Singer advocated agitation by parliamentary methods, and denounced those who were opposed to achieving the aims of socialism with the weapons furnished by the law and constitution.

The congress finally voted a resolution in favor of Herr Singer's views, much to the disappointment of the more violent element of the party.

The feeling against Herr Werner, who is accused of insincerity and of being a socialist for revenue only, is growing, and it appears certain that he will not be permitted to remain in the congress.

A BAD "BEF."

The police visited the Edsall house at the corner of Clinton and East Superior streets last night and placed under arrest Eva Jones, a notorious character, and two men who were slated as Wm. Morgan and James Wilson. The parties were arraigned before the mayor this morning and Chief Wilkinson and Officer Stoll testified to the bad character of the Edsall hotel, styling it an "assignation house." Marshal Franke testified that the character of "Eva" was bad. The mayor gave instructions to have the house kept under surveillance. The fine of $15.50 was paid by the offenders.

The brutes entered the house while the family were at church and the girl at home alone. A boy named Meeks saw the villains enter the house and hearing screams shortly afterward, surmised the truth and informed some neighbors. Slifer was captured, but the other two escaped. Officers are scouring the country for them. Slifer is in jail under a heavy guard as there are threats of lynching.

Justice Miller and Gen. Belknap May be Buried at Keokuk, Iowa.

KEOKUK, Iowa, Oct. 14.—News of the death of Justice Miller was received here with genuine feeling of sorrow by all. It is thought that the remains of Judge Miller and Gen. Belknap will be brought here for burial, the bodies of their first wives and children being buried here.

THE OFFICERS NEXT.

After That an Exposition Site Will be Quickly Chosen.

The result of last night's meeting of the stockholders in the exposition association will be found in this issue of THE SENTINEL. A meeting will be held at the rooms of the Land and Improvement company to-morrow evening for the election of officers. The site question will then be brought up and it is believed it will be submitted to the stockholders next Monday evening to choose and pass upon. The committee is still reticent about a site, although one of them expressed himself as follows to-day: "I anticipate almost an unanimous sentiment in favor of a site lying to the northeast, either the Tabor tract, the Hayden farm, the Evans farm or Centlivre's ground. The Tabor tract, if it can be leased with an option of purchase, may be selected. But if such option cannot be procured, the Tabor tract will be out of the question."

All of the grounds will be visited and reported upon.

The Organization Feels the Pulse of Interest Growing Weaker.

The Emmett commandery, Knights of St. John, which is virtually a uniform rank of the Catholic Benevolent legion, held a meeting last night, which resulted in a disbandment of the society. There has been a lack of interest shown lately at the meetings and the captain has had trouble to draw out a desired number at drills. A new commandery will probably be organized soon.

Talk at Washington About the Elevation of Attorney-General Miller to the U. S. Supreme Court.

WASHINGTON, Oct. 14.—No sooner was the death of Justice Miller announced than the talk as to who would be his successor was indulged in by political gossips. Many think that the judicial robes of the dead justice will fall upon Attorney-General Miller, who was the former law partner of the president at Indianapolis. It would afford President Harrison the opportunity of "fixing" Mr. Miller for life.

Attorney-General Miller formerly resided in Fort Wayne and frequently visits here, where he has property interest.—(ED. SENTINEL.)

TWO PERSONS may be born at the same time and die at the same time, and yet one have lived one hundred days more than the other. The explanation of this riddle turns upon the familiar fact that a person who goes round the world toward the west loses a day, while the person who travels in the opposite direction gains a day. We will suppose, then, that the two men in question were born at the same instant in St. Louis, from whence a trip around the world may easily be made once a year. One of them goes always to the west, the other toward the east. One loses a day every year, and the other gains a day every year. When the man die, at fifty years of age, one has seen one hundred days more than the other.

A SCIENTIFIC writer advises that of the various patterns of filters in use very few of them are of any use whatever. They act not only as a strainer to remove the coarser impurities, but have no effect upon the microscopic bacteria, or matters held in solution, which are the most dangerous. A flannel bag is exactly as good a filter as those expensive devices, and possesses the additional advantages of being easily cleaned or renewed. The most effective filters are those in which a disk of porous stone or earthenware forms the filtering material, but it is best to make sure of the original supply of water, rather than to purify it by any such uncertain methods.

A WONDERFUL poplar tree was recently cut in Logan County, Virginia. The log measures 97 feet long, is 63 inches in diameter, cubes 1,000 feet, or 21,125 feet board measure. It will be run out on the first water that will carry a log of such dimensions. It is probably the biggest log ever cut and sent to a saw mill in one piece.

LAST night, at Taylor University, Bishop William Taylor commenced a series of three lectures on "Africa and the African." In commencing he said: "Africa is a vast unknown quantity. It comprises one-fourth of the land area of the world and, according to Mr. Stanley, has a population of at least two hundred and fifty million." The lecture was interesting throughout. The bishop announced that this evening he would explain the method he has discovered for the rapid evangelization of Africa. Bishop Taylor will sail next week for Africa, where he is doing a grand work.

SEVEN years ago Sunday, in Philadelphia, Bishop Knickerbocker received his consecration to become bishop of the Indiana diocese. He gave a review of his seven years' labor at St. Paul's church, Indianapolis, Sunday morning. By aid of funds the bishop has been able to extend churches into twenty counties, twenty-five places, and has established twelve mission churches. There have been built nineteen churches in all, at a cost of $119,000, and $6,500 has been expended in chapels; $7,500 in mission houses. Ten rectories have been built at a cost of $37,000. Instead of the forty unoccupied counties which now exist, the hope is to see the church established in every county seat in the state.

The meeting was called to order by D. N. Foster. Mr. Henry Manning was elected chairman and C. D. Tillo secretary. The committee that had made the canvass for subscriptions and who were also instructed to present a plan of organization, reported the articles of incorporation and by laws, which were discussed and adopted.

JUSTICE MILLER'S DEATH.

Justice Miller died at 10:52 last night at his home in Washington, D. C. As has been predicted the end was peaceful and painless. He did not for a moment return to consciousness since the night of the fatal stroke. Last night there was little change till about 10:30, when a change for the worse was observed. From that time the respiration grew shorter and it was evident the end was at hand. His family were called to the bedside. The physicians did all that mortal power could do, and at eight minutes before eleven he ceased to breath.

Justice Miller was the oldest judge in the supreme court of the United States, having been appointed during President Lincoln's administration when the supreme court was reorganized in 1862.

The paralytic stroke of Justice Miller last Friday was a surprise to every one in Washington. His constitution has apparently been one of iron, and he has for years worked more than twelve hours out of the twenty-four. It was his habit to go into his office, at his home on Massachusetts avenue, as soon as he had finished his breakfast in the morning, and to work there upon his cases until the supreme court met at noon. During his whole career as a supreme court justice he missed scarcely a day in attendance upon the supreme court when it was sitting, and he worked far into the night writing his opinions and passing upon cases after his return from the capitol.

There has been no judge on the bench for years who has done more work than Justice Miller, and he was one of the best equipped men of the corps of justices. He was a self-educated man and he never had the advantage of college training. Like Justice Bradley, he was very fond of mathematics, and he kept up his mathematical studies during his later years. He started in life as a drug clerk and spent three years in making up prescriptions. He then went to a medical school in Kentucky and practiced medicine, after he had gotten his diploma, for eight years. He found it impossible for a young doctor to get along without a wife, and he had two children before he decided to give up medicine for law. When he began to study law he took up the study of Latin and acquired a thorough knowledge of the language. He has, however, always decried the study of dead languages, and he said not long ago that he did not think there was any necessity for a man to waste four years of his life in the study of dead languages.

REFORMED ORPHANS' HOME.

A Visitor to the City Gives a Pen Picture of the Institution.

The Reformed orphans' home, which, under the charge of Superintendent John Rettig, is located near the eastern confines of this city, is thus described in the last number of the Grace Church Visitor by Rev. R. C. Zartman, of Akron, Ohio, who, in company with others, was shown through the institution during a recent visit to this city:

"The orphanage is located on a farm of fifty-seven acres. The principal building is a large and commodious brick structure, erected originally at a cost of $10,000. This summer an addition was built at an expense of $8,000. There is a large frame barn, a dwelling house and other buildings on these premises, and all in excellent condition. The land is cultivated by the superintendent and the boys of the home, who are large enough to do such work. They also rent neighboring fields and farm them. In this way the grain, fruits and vegetables for the home are raised, and many hundred dollars' worth are sold and the proceeds used in maintaining the orphan family. All of the children are put to work, and thus are they taught the valuable and indispensible lesson of industry. The children are sent to the district school ten months in the year.

"Miss Rettig is the teacher. Besides this schooling they are taught good manners, Bible truths and Christian principles in the home. Daily prayers are observed by all the children, and on the Lord's day the Sunday school lesson is taught them. The children are educated both in German and English; and English as well as German children are admitted to the home. We saw a number of boys and girls who can now read, speak and sing in German, but when they entered the home they knew nothing but the English language. The educational features of the home impressed us very favorably in every particular.

"At the present time there are sixty-one boys and girls at the home; they are children of Reformed parentage; there are twice as many boys as girls. When the new building is completed, which will be very soon, over a hundred children can be accommodated. The present yearly expense of running the home is $5,000. About one-fourth of this amount is earned by the farming and gardening done by the home. The other needed funds are secured by the contributions of the Sunday schools, churches and individuals.

"The home is managed in an economical manner; indeed, we consider its management perfect, and the most satisfactory of any known to us. The entire confidence of the church can be reposed in this home, because of its unsurpassed government. This grand institution is owned conjointly by the three German Reformed synods. Our German brethren started it seven years ago, and they are entitled to great praise for it."

The opinion of an old and well-known merchant is given in a few words, viz: "I think Dr. Ball's Cough Syrup is the best cough medicine that is made. Luther B. Black, Selma, Ind."

"Diseased nature oftentimes breaks forth in strange eruptions," and the result of it all is pain. Now Salvation Oil will send this very pain to the right-about at the trifling cost of only 25 cents.

English brewing syndicate tried to buy the Moerlein concern for $5,000,000, in Cincinnati, but failed.

Facts Worth Knowing.

In all diseases of the nasal mucous membrane the remedy used must be non-irritating. The medical profession has been slow to learn this. Nothing satisfactory can be accomplished with douches, snuffs, powders or syringes because they are all irritating, do not thoroughly reach the affected surfaces and should be abandoned as worse than failures. A multitude of persons who had for years borne all the worry and pain that catarrh can inflict testify to radical cures wrought by Ely's Cream Balm.

George Fairfield and Ed. Tenney have been mustered into the Rifles.

Wednesday evening the Rev. W. P. Kane, D. D., of Lafayette, and Rev. Dr. D. J. McMillan, of New York city, will speak on home missions. Wednesday afternoon the cause of the freedom in the south will be considered, followed by an address by Rev. E. A. Mutchman, D. D., editor of the Philadelphia Presbyterian, on "The Education of Ministers." Thursday evening the Rev. John Gillespie, D. D., of New York city, will speak on foreign missions, and Rev. H. The Best Remedy

In this world, says J. Hofherr of Syracuse, N. Y., is Pastor Koenig's Nerve Tonic, because my son who was partially paralyzed three years ago and attacked by St. Vitus dance, has not had any symptoms of them since he took one bottle of the remedy. I most heartily thank for it.

Superior Nervine.

Cleveland, Ohio, May, 1889.
I used Pastor Koenig's Nerve Tonic for nervous trouble of a cerebral nature, resulting from overwork, and have found more relief from it than anything I used, though I spent a good deal of money for medicines and doctors. Taylor's Herbs all cases irritation, is a superior nervine, and a prompt and efficacious spasmodic.

IS IT A NUISANCE?

Citizens Petition to Have the Council Prevent the Rebuilding of the Leikauf Packing House.

A petition, signed by numerous citizens of the east end will be presented to the council this evening.

It prays the council to prevent the rebuilding of the Leikauf packing and slaughtering house on the site where it stood before the fire.

The grounds for the petition is that the establishment is a public nuisance.

A FEW weeks before the consus-takers began the regular census the citizens of Elm Grove, W. Va., thought to enumerate their population preparatory to incorporating the town. The following is the remarkable result: Number of males over twenty-one years of age, 148; nuber of males under twenty-one years of age 148; number of females over sixteen years of age, 148; number of females under sixteen years of age, 148; grand total, 592.

Why it is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day.

Col. B. S. Robertson left for Salt Lake City yesterday, on business connected with the Utah commission.
